

PARTNERONE FUEL SOLUTIONS

PartnerOne Fuel Solutions is a package of coverages designed to meet the needs of businesses with unique premises specific exposures. Coverage is competitively priced for locations where evidence of financial responsibility is required for storage tanks, as well as locations with other operational exposures.

But the PartnerOne Fuel Solutions program is much more than just another “tank market.” Combining high quality coverage from “A” rated carriers with the exceptional underwriting talent and experience of the PartnerOne team, the Fuel Solutions program brings you the right coverage the right way.

Coverage details:

The PartnerOne Fuel Solutions policy provides coverage for cleanup costs at a tank owner’s facility due to releases from site itself and/or scheduled tanks on the policy. Coverage is also provided for third party bodily injury and property damage claims emanating from the site itself and/or scheduled tanks on the policy. Policies are written on a claims made basis.

This coverage is important because it provides legal defense for third party claims made against the facility owner. A policy/certificate satisfies federal and state requirements for financial responsibility, and in many cases, is required to conduct business.

In addition to traditional storage tanks, PartnerOne Fuel Solutions addresses the changing needs of alternative and renewable fuel storage, including electricity, biodiesel, hydrogen, ethanol, natural gas, propane, etc.

Available enhancements include, but are not limited to:

- Dedicated Limits per Location
- Natural Resource Damage
- Waste Transportation
- NODS
- Business Interruption

Target risks:

- Auto/boat/recreational vehicle repair & maintenance facilities
- Gas stations
- Convenience stores
- Car/boat/recreational vehicle dealerships
- Alternative fuel locations
- Charging stations
- Agricultural risks with farm equipment
- Golf courses
- Marinas
- Any location with a tank and/or backup generator such as a hospital, hotel, condo, school, municipality, or cell phone tower.
